

Technical Data Sheet

MMA-Triazine 40%

Description

MMA-Triazine 40% is a clear to light amber liquid with an amine odor. Its principal use is to scavenge hydrogen sulfide from gas and oil. The product is available from our Hexion plant located at Diboll, TX.

Custom formulations based on this product can be blended to meet customer finished product requirements.

Our product is typically supplied in bulk truck. Hexion also offers a variety of packaging options depending on regional capabilities.
